DESIGN INSPIRATION

Sonnen-Klar, an outdoor fabric, which uses highly technical properties and combines them with comfort and beauty. By working special color pigments into the fiber, an extremely high light fastness is generated in the fabrics, and there is almost no fading (as it is the case with conventional fabrics) even with intensive exposure to UV rays. In addition, the materials are weather resistant and remain mould-free even after lengthy exposure to a wet environment. The plain fabric Sonnen-Klar is a cross-twill weave suitable for upholstery, pillows or curtains. Direct sunlight and other weather influences are not a problem for this robust outdoor fabric. Sonnen-Klar is manufactured in Italy.
