DESIGN INSPIRATION

Urban geometric architecture deconstructed and assembled as this artistic movement's aesthetics, InHaus takes us back to a warm place where the harmony of geometric and organic shapes come together as a southern picture of an Urban Geometric Architecture. This soft weaved velvet can be FR treated. Following our environmental awareness, this high pile cotton velvet has been developed with an inherent treatment with Polygiene ViralOff, that is imbibed within the fiber during production that reduces 99% of viruses within 2 hours.
