DESIGN INSPIRATION

New yarns are made from industrial surplus in the fashion industry and from second-hand clothes stock in an eco-friendly process for Benu Remix. The material is sorted by -color, which eliminates the energy-consuming process of dyeing. Only the best textile fibers are carded and spun into a new, high-quality yarn. Reducing waste water, dyes and chemicals protects the environment and saves precious energy. All Benu collection fabrics by Christian Fischbacher are made from recycled materials and represent sustainability and eco-conscious production. Benu Remix is made by an Italian manufacturer specializing in high-quality woollen fabrics.
