DESIGN INSPIRATION

Elegant and nonchalant, Maxima is an alluring, semi-transparent fabric in a waffle weave. The combination of a metallic appearance with a slightly sculpted surface, featuring squares whose contours appear in relief in contrast to their sunken centers, is almost reminiscent of textile chain mail. The material is light and its special feel makes it seem rather delicate. Highly effective contrasts in the creative signature style, primarily the combination of matt linen and glossy polyester, enable Maxima to contribute a clear, modern accent. The Airo finishing refinement process, a mechanical method carried out entirely without chemicals in order to avoid harming the environment, achieves Maxima's soft, flowing feel.
