DESIGN INSPIRATION

Attitude is a false uni, designed for use in collective spaces. Flame retardant and with changing metallic highlights, it seduces with its intense colors and softness to the touch. Its airy structure, the result of the float of contrasting color compared to the bottom, gives rise to a captivating design. During finishing, the base fabric shrinks slightly due to the use of retraction threads - this gives a three-dimensional effect to the fabric. Attitude demonstrates the innovative ambition of Christian Fischbacher to combine the most modern weaving technology with the highest quality materials to offer surprising new creations.
