### DESIGN INSPIRATION

A special reversible curtain fabric in double-width, and woven in 90% linen. The unique character of this fabrics is that it is are made by overlapping three different layers of fabrics to create one beautifully structured woven textile. While a double weave is special but also a known technique in the textile market, three layers are truly exceptional! Triga is a double face fabrics, doubling the available colors. Triga is an irregular stripe with similar final effects. Tririga: in Italian means three stripes.
