DESIGN INSPIRATION

Palazzo is a luxurious silk woven on a jacquard machine of the latest generation. Fine twisted silk warp yarns of very high density (136 threads per cm) form the dense, lustrous base fabric on which the matte ornament stands out in contrast. This effect is caused by a linen thread in the weft, woven onto the surface of the fabric in a waving motion. Palazzo is produced in one of the best and most innovative weaving factories in India, which in every respect meets Christian Fischbacher's high standards and has been valued as a trusted partner over many years.
